"Seeing is believing" to start the spring season. Do not miss out on this custom-built gem located on a large lot with many amenities and mature trees. This 1940s brick and steel-sided 1.5-story home was built on an unfinished basement foundation. The main level consists of rounded corners, 9' ceilings, a four-season family room, a living room with custom built-ins, a fireplace insert with a circulating blower, a marble hearth, and an oak mantle. The kitchen features stainless steel appliances, tile countertops and flooring, and custom cabinetry. The primary bathroom includes a whirlpool tub/shower combo and a laundry hook-up. All of the exterior doors have deadbolts for added security. The exterior has a detached 1940s guest house, a cobblestone patio, an in-ground heated saltwater pool, an aluminum and brick fence, and a pool house. The home has been remodeled and updated over the years.

Proof of funds or pre-approval from the lender is required before showing.
